Alvaro Garcia

Fractional CTO & IT Executive

Guadalajara, Mexico | Open to remote roles worldwide | algarmat@gmail.com | +52 33 3128-8999 | linkedin.com/in/algarmat

English (Fluent) | Spanish (Native)

PROFESSIONAL SUMMARY

IT and Engineering executive combining C-level leadership with hands-on delivery. As Fractional CTO and Technology Consultant at Grupo Alista, I have shipped multi-tenant SaaS platforms, CRMs, websites and automation to production since April 2026 - using an AI-native engineering practice (Claude Code, Codex, MCP tooling) held to mandatory security review and cloud-cost discipline. Before that: 25+ years leading IT at Hewlett-Packard, Morgan Stanley, Clip, Rackspace and The Credit Pros - PCI-compliant payments, multi-cloud and SDLC-driven engineering leadership.

CORE COMPETENCIES

Engineering & Technology Leadership · IT Strategy & Roadmap · P&L and Corporate IT Budget Management · Senior Project & Program Management · Global Team Leadership & Scaling · Stakeholder & Change Management · Vendor & Contract Negotiation · KPIs & OKRs · AI / LLM Platform Development & Integration · Full-Stack Software Development · Modular System & Solution Architecture · DevOps, CI/CD & SRE · Software Development Lifecycle (SDLC) · Agile / Scrum · Cloud Architecture & Modernization (AWS, Azure, GCP) · Payments & Credit-Card Transactional Systems · Cybersecurity & Compliance (PCI DSS, SOC 2, SOX) · ITIL v4 · Agentic Software Development (Claude Code, Codex) · Multi-Agent Orchestration & Sub-Agent Workflows · Spec-Driven & Test-Driven Development · MCP Integrations · AI Code & Security Review Gates · Prompt & Context Engineering

PROFESSIONAL EXPERIENCE

Fractional CTO & Technology Consultant - Grupo Alista

April 2026 - Present

Technology leadership for a Mexican business group and its clients in health, private security, foreign trade, manufacturing and retail - architecting and personally building their production platforms.

- Architected and shipped DENTALISTA, a multi-tenant dental-practice SaaS (Next.js, PostgreSQL row-level security, AWS CDK, Stripe subscription billing) - 400+ commits and 76 schema migrations, live at dentalista.app and built for Mexican data-privacy law (LFPDPPP).
- Built GuardTrack, a guard-patrol platform - Android app (Expo / React Native) plus web console on Supabase - that proves every checkpoint with a signed QR scan, photo and GPS; 240 commits and 26 edge functions delivered in 18 days.
- Delivered an attendance, payroll and ISO 9001 platform for a private security firm with 380+ guards and 100+ client accounts (Next.js, Drizzle, PostgreSQL on AWS) - 420 commits since May 2026.
- Built CRMs and back-office systems: an AI-assisted consulting back office (quotes, CFDI e-invoice ingestion, bank reconciliation), a cross-platform desktop sales CRM with a 25-stage pipeline, a customs-operations platform and a quote-to-production system for a U.S. manufacturer.
- Redesigned and launched 8 production websites (Next.js, Astro, Vite) on AWS S3/CloudFront and Vercel, with bilingual i18n, SEO structured data, CSP hardening and WCAG AA audits at zero axe violations.
- Built integrations and automation: a 53-node n8n content engine (fal.ai, Runway, ElevenLabs, Meta and Pinterest APIs), Stripe subscriptions and webhooks, Resend / AWS SES email, CFDI e-invoice parsing and a Claude-powered WhatsApp agent.
- Run an AI-native engineering practice - Claude Code with sub-agent orchestration, Codex as independent reviewer, 25+ MCP integrations, spec-driven development and pre-commit security gates - with per-project AWS cost attribution and budget alarms.

IT Senior Director - The Credit Pros

March 2022 - March 2026

Led enterprise IT strategy, software development, and operations for a U.S. consumer-credit company; managed AWS/Azure infrastructure, cybersecurity, and a portfolio of 5 vendor agencies with offshore development teams. C-level partner to the CTO driving AI-led transformation.

- Delivered 40% business growth and 25% workforce automation through strategic IT roadmap execution, cutting innovation project costs by 20%.
- Directed development of AI-driven applications and internal platforms - integrating LLM/Claude-based automation and data analytics within a PCI-compliant credit-card transactional environment to optimize operations and reduce manual processing.

- Drove modular system architecture and full-stack delivery (Next.js, React, Python, Supabase) across offshore teams under an SDLC and senior project-management framework; improved DevOps delivery performance by 50% via KPI/SLA optimization.
- Established enterprise-wide PCI DSS / SOC 2 security policies and a continuous compliance-monitoring framework.
- Owned full P&L for the corporate IT budget, procurement, and project-management function.

Engagement Manager - Rackspace

July 2021 - March 2022

Managed 10-15 concurrent enterprise customer engagements across AWS, GCP, and Azure environments, driving cost optimization and Agile delivery.

- Reached full onboarding and independent customer management within 1 week - a record for the team.
- Enhanced customer reporting and KPI tracking, improving transparency and stakeholder satisfaction.
- Led escalation management and long-range planning for high-risk cloud programs.

Director of IT Operations - Payclip (Clip)

July 2020 - July 2021

Built the IT operations strategy for a rapidly scaling payments fintech - regulatory processes, ITIL framework, and cross-functional alignment across engineering, product, and business in a card-transaction environment.

- Consolidated service-operations collaboration across all departments within 6 months.
- Achieved 20% budget reduction through automated procurement controls and process optimization.
- Led cloud migration of all internal tools; restructured IT teams and vendor contracts for scalability.

IT DevOps Manager, Enterprise Network Services - Morgan Stanley

July 2015 - June 2020

Led global IT operations and network services for a Fortune 500 financial-services client, managing 300+ associates across a follow-the-sun delivery model.

- Achieved and sustained 100% SLA/KPI compliance within 90 days through process optimization and quality controls adopted across multiple teams.
- Managed a multimillion-dollar budget and vendor contracts; implemented Splunk monitoring across enterprise accounts.
- Grew a high-performing team 20% year-over-year with global technical and soft-skill training while meeting attrition and customer-success targets.

Service Operations Manager / SAP FI Consultant - Hewlett-Packard

2001 - 2014

Progressive 13-year career across Problem Management, Change Management, SAP FI consulting, and global IT operations, leading cross-functional teams in the US, Mexico, and India in 24x7 enterprise environments.

- Cut month-end-close incidents by 50% through a new IT finance strategy and KPI implementation.
- Built an application-availability dashboard adopted as a worldwide standard, reducing analysis time by 30%.
- Led migration of SAP FI support from the US to Mexico with zero SOX audit-compliance issues; maintained 100% root-cause-analysis success with 90% resolution within 48 hours.

TECHNICAL SKILLS

Claude Code | Codex | Claude API | Gemini API | MCP | TypeScript | Python | SQL | Next.js | React | React Native / Expo | Astro | Vite | Tailwind CSS | Electron | Node.js | FastAPI | Drizzle ORM | Prisma | PostgreSQL | Supabase | Neon | Turso / SQLite | AWS (CDK, RDS, S3, CloudFront, Lambda, Amplify, SES) | Azure | GCP | Vercel | Cloudflare | Docker | GitHub Actions | Stripe | WhatsApp Cloud API | Resend | n8n | Zapier | Playwright | Vitest | SAP FICO | Splunk | Atlassian (Jira, Confluence)

EDUCATION

Bachelor of Science in Computer Science & Information Technology -
Instituto Tecnológico y de Estudios Superiores de Occidente (ITESO)

Leadership & Management Diploma - Instituto Tecnológico de Estudios Superiores de Monterrey (ITESM)

CERTIFICATIONS

ITIL v4 | AWS Fundamentals | PCI DSS Compliance | SOC 2 Compliance | SOX Audit | AI Integration & Data Visualization | Six Sigma / Lean Management | Project Management (PMP methodologies)
